BIG DATA VALUE
ASSOCIATION

IoTWeek

Dublin — June 20-23, 2022

- Rapid evolution of new paradigms: **Metaverse, Spatial Web, Web3.0** → **And how do they relate to each other and to the current landscape of technologies?**
- **Technology convergence:** Big Data, IoT, VR/AR/HMI, AI, Computing continuum, → **Collaboration between existing research and innovation communities**
- **State of the Art:** Research (multidisciplinary), Innovation and Market → **Technology, economics, regulation, standardisation and societal aspects**
- **Opportunities and challenges.** For **industry**, for **society**, ...
- From a **Research-Industry perspective:** Is there **any European Vision, roadmap, and Strategic Agenda? Do we need one?**
- **Identify** from a **techno-business-societal perspective** key **projects, activities**, and **communities** working in these fields
- **Explorative session:** eventually maybe a joint topic of collaboration AIOTI-BDVA
