Tourism, sustainability and
quality of life are all part of the
same system

'People are driving past three airports to take flights from Dublin. It must be addressed'

Shannon Airport Security Manager John Francis operating the airport's new security screening system. Picture: Arthur Ellis.

TUE, 14 JUN, 2022 - 18:02

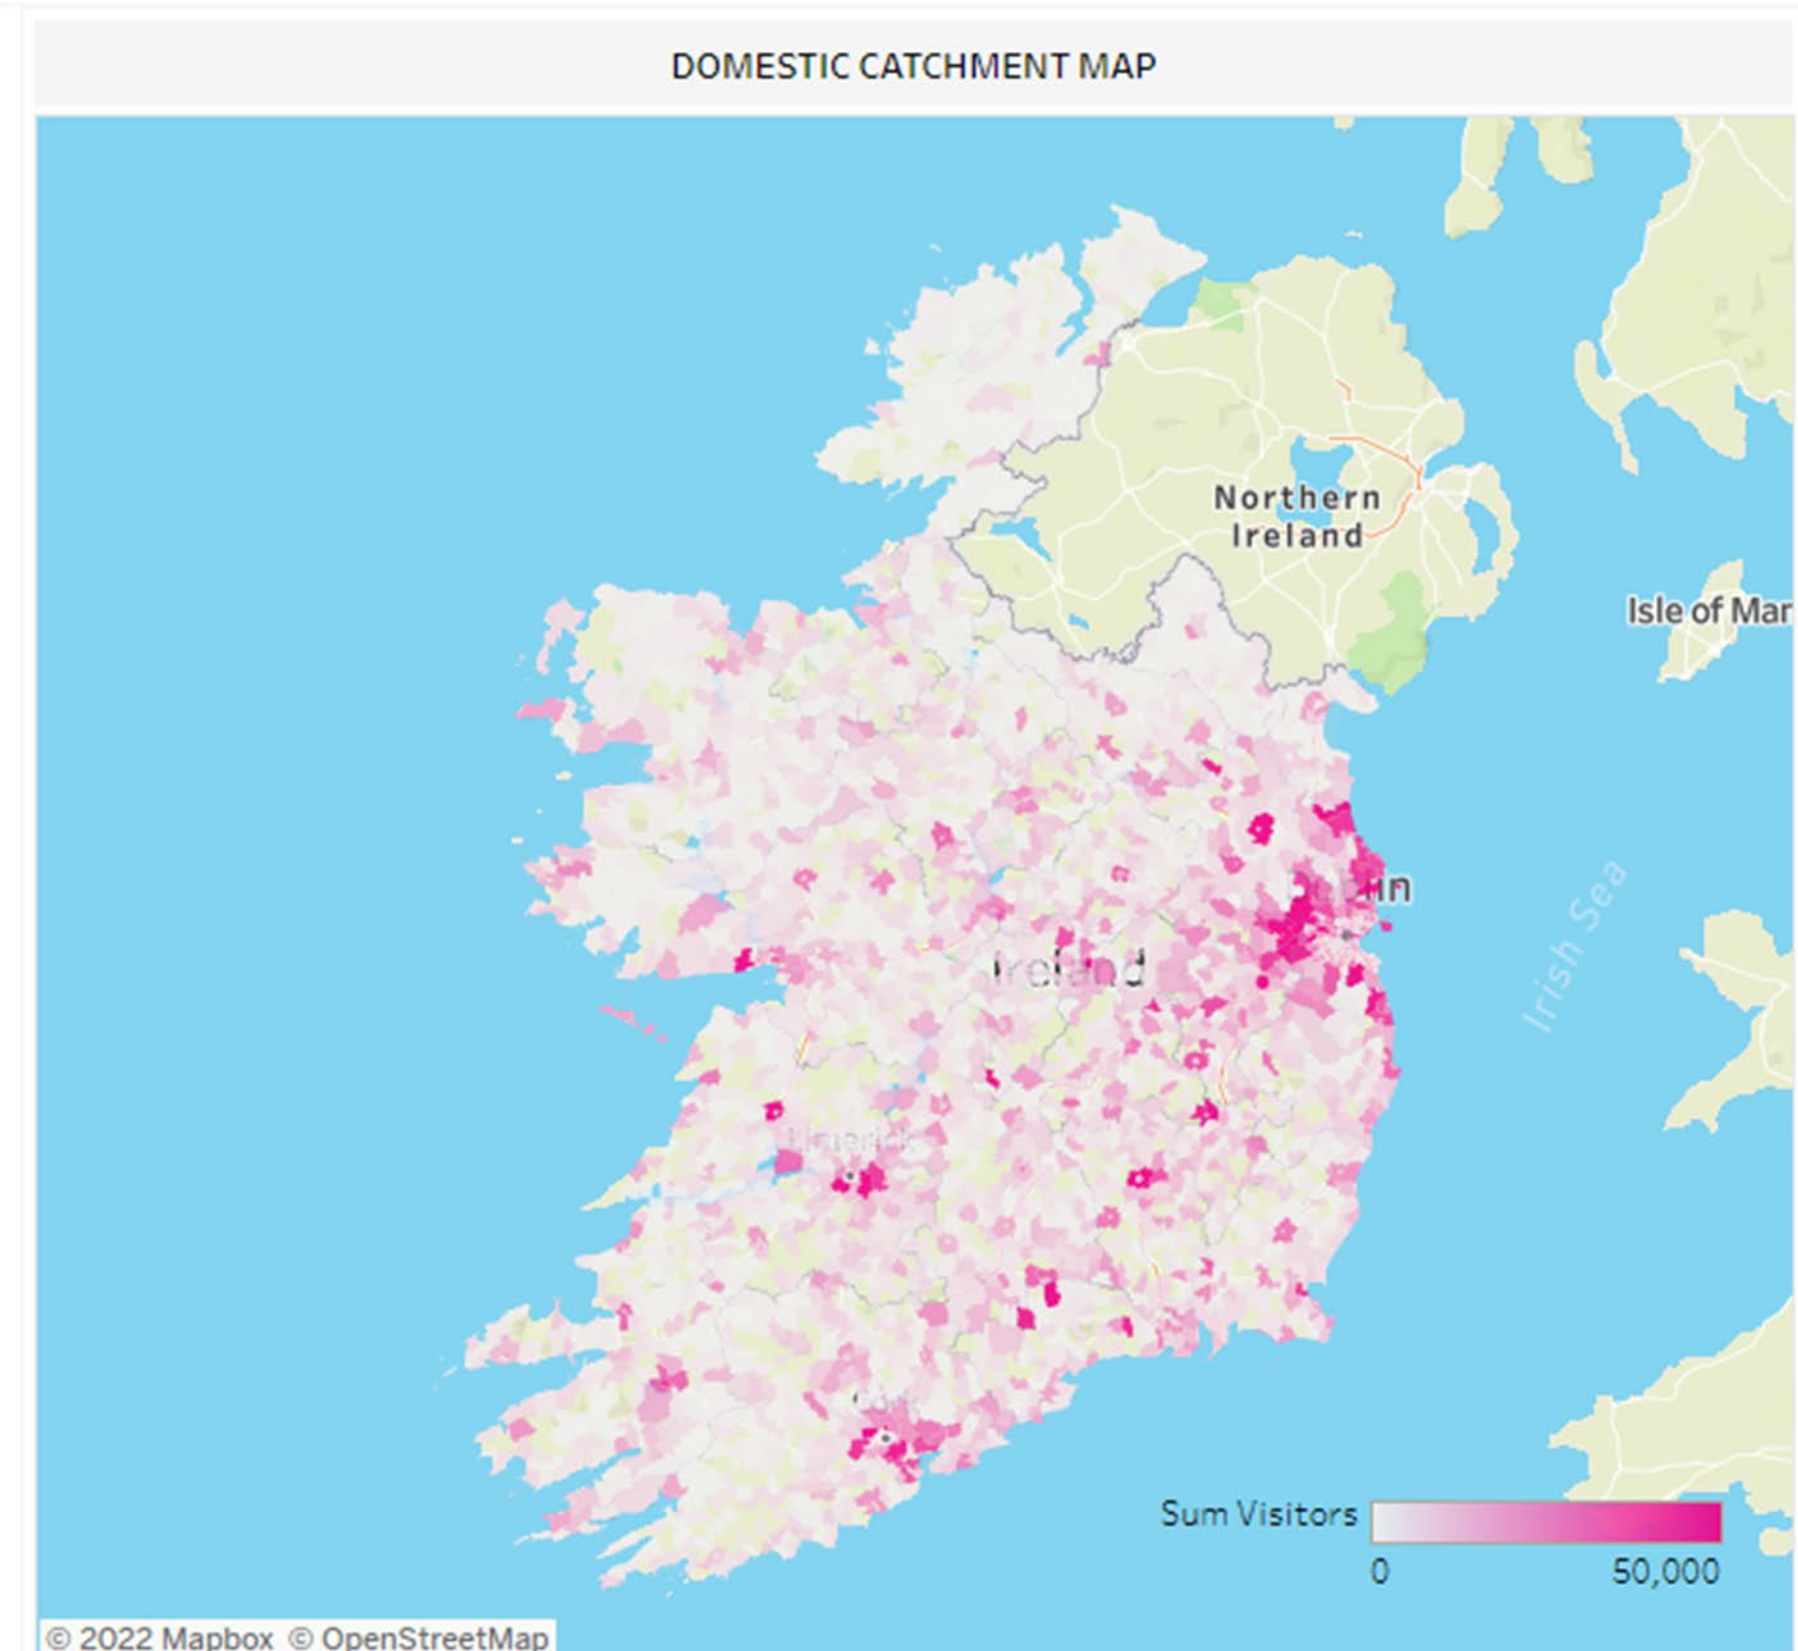

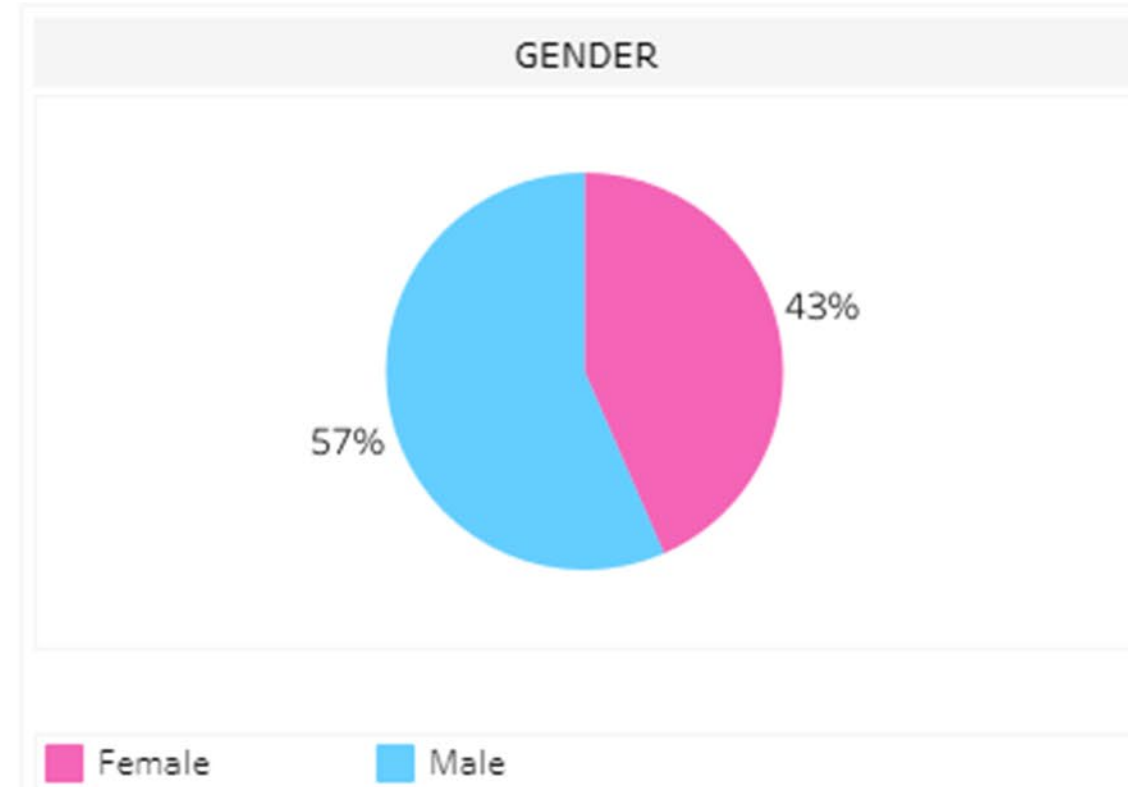

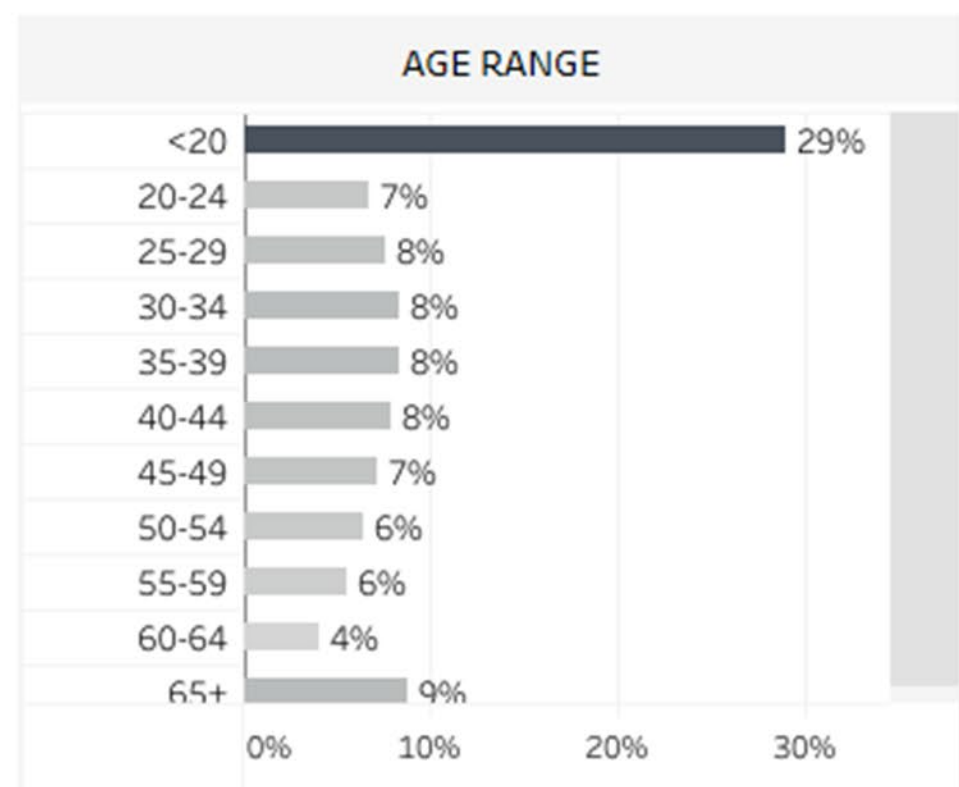

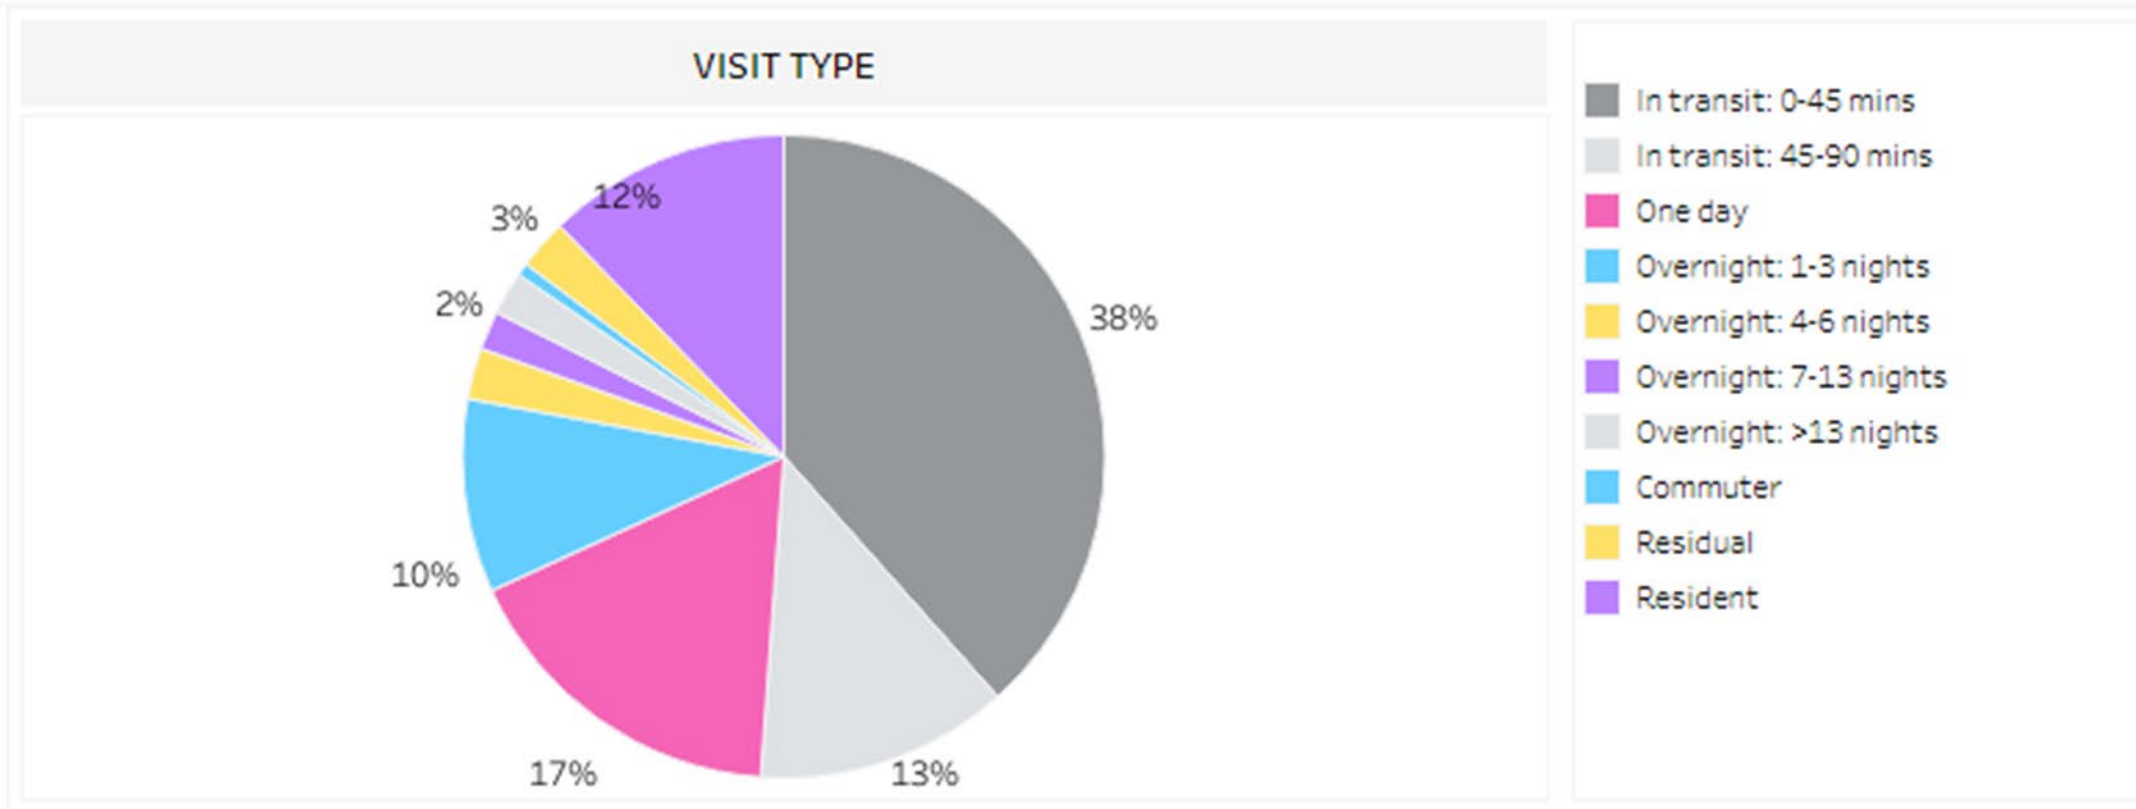

Diverse and high frequency
data are key to predicting
behaviour and delivering
sustainable tourism

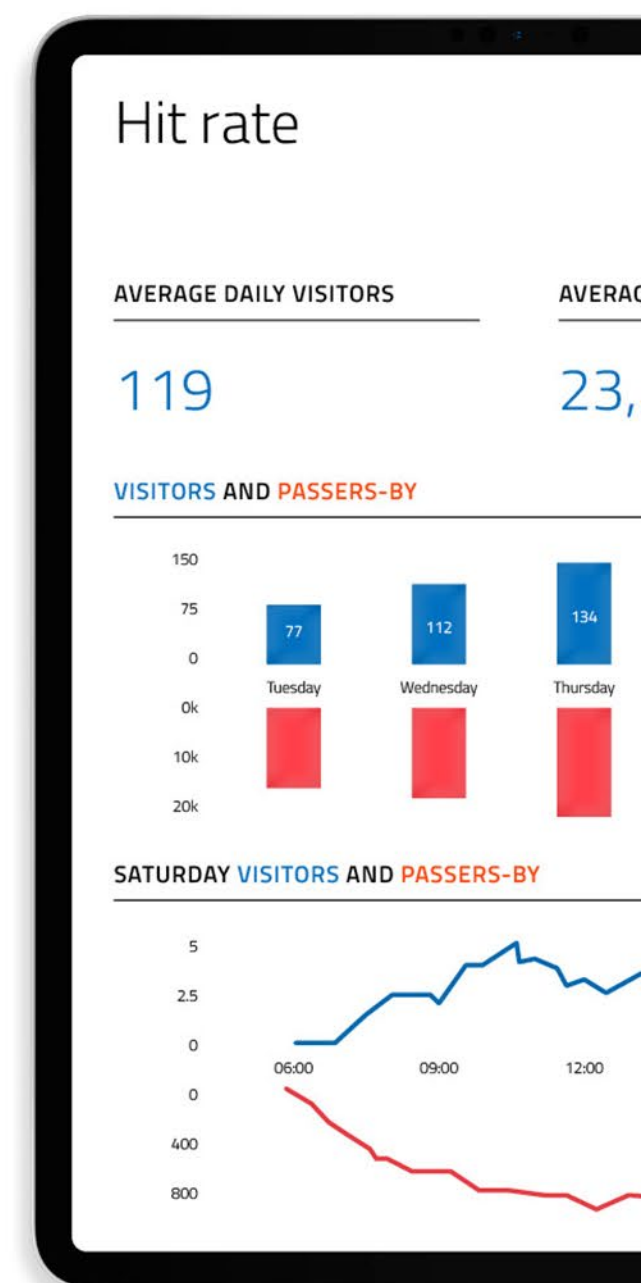

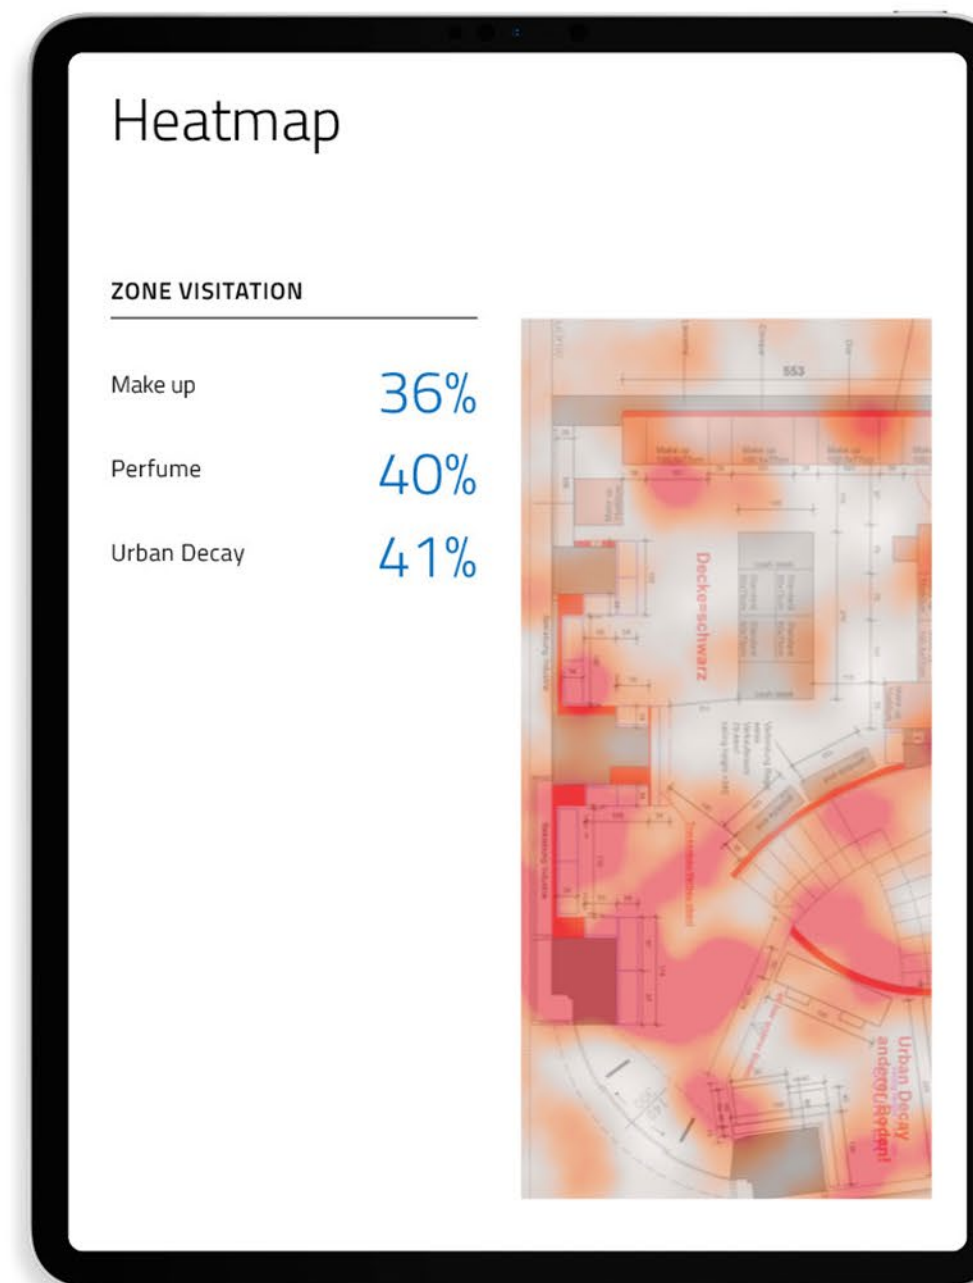

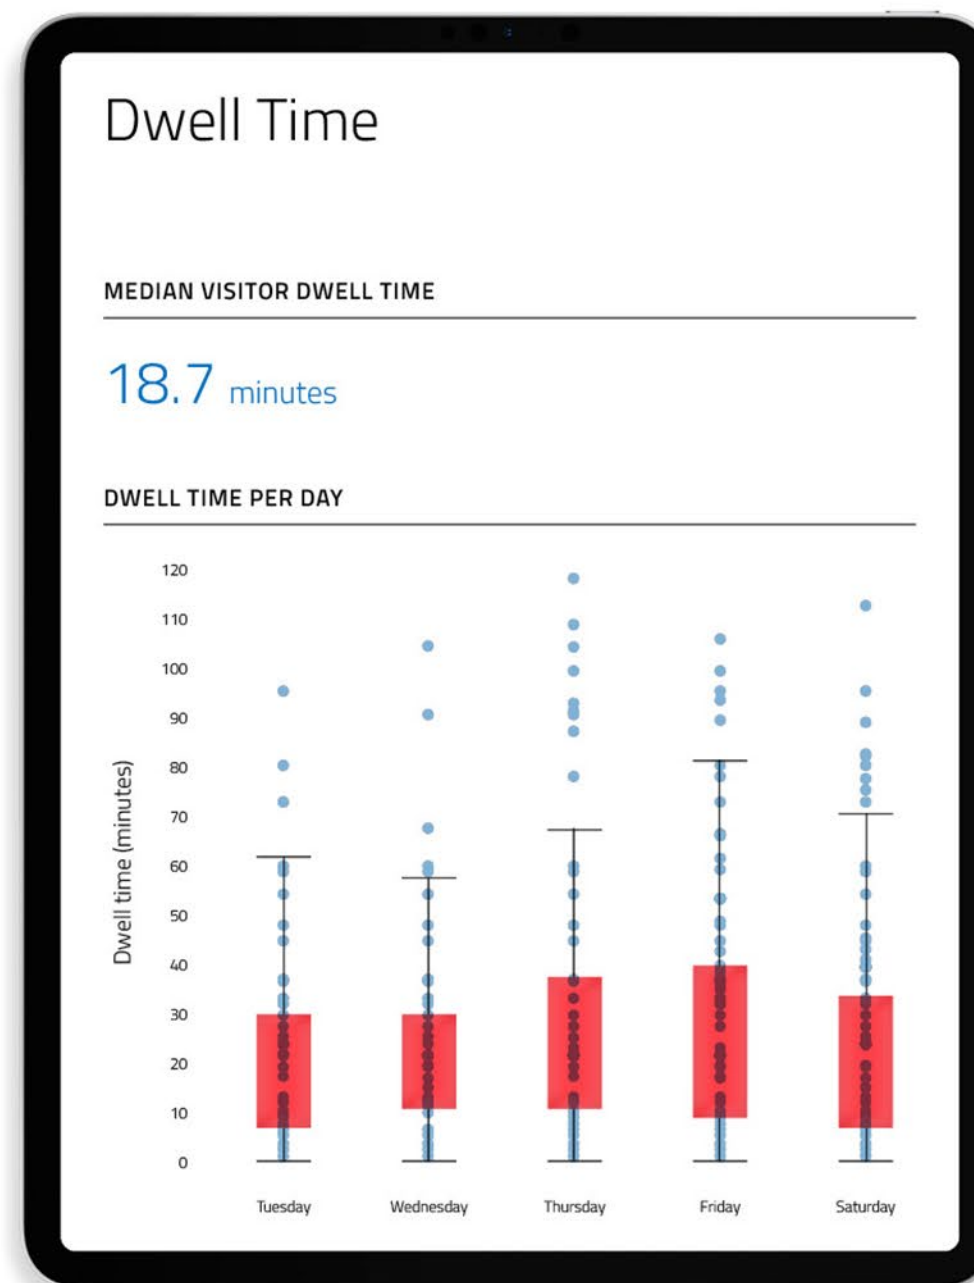

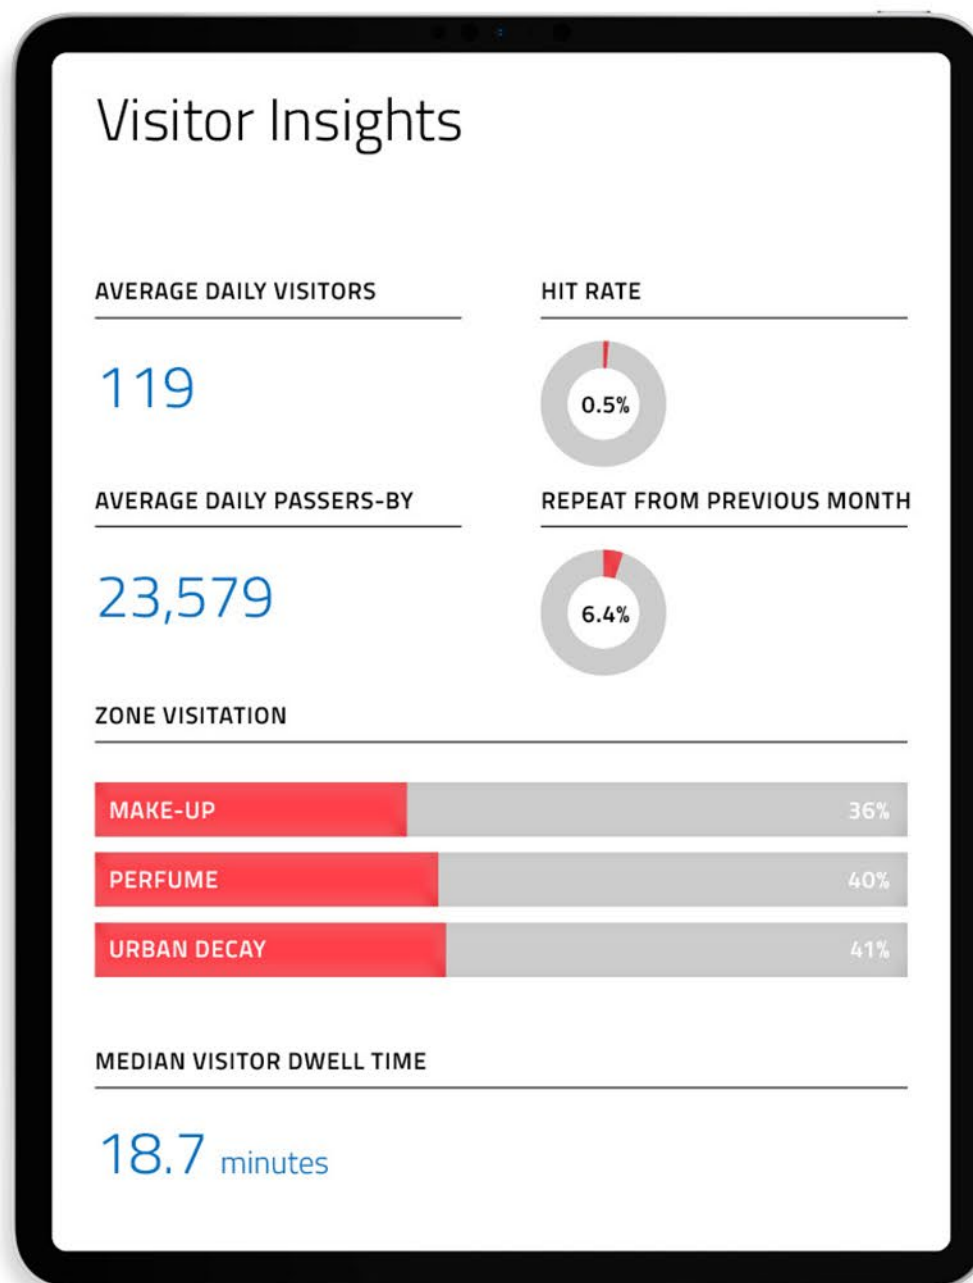

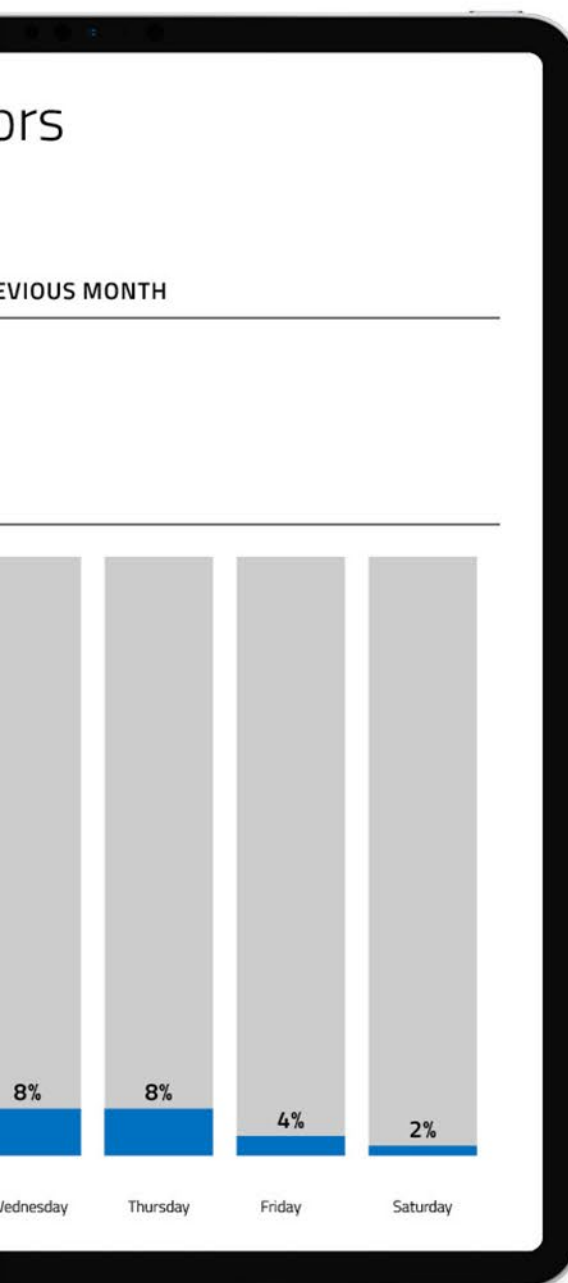

Sometimes the picture only
becomes clear
by combining the macro and
the micro lenses

Can it be done?

Definitely

Thank you
