

IOTWeek

Dublin — June 20-23, 2022

ITI INVESTIGATE
TO INNOVATE

ITI Data Innovation Space

Daniel Sáez-Domingo. Technology Transfer Director in ITI

GLOBAL VISION:

IoT TODAY AND BEYOND

IoTForum

ITI provides knowledge, infrastructures and technologies to answer technology and business challenges coming from companies, as well as funding assessment to cover their research and digitalization processes.

Since 1994, our R&D has focused on the needs and problems of companies, seeking **technological solutions that respond to social and economic challenges that improve industrial competitiveness, fostering a more intelligent and sustainable society.**

1 +275
Professionals

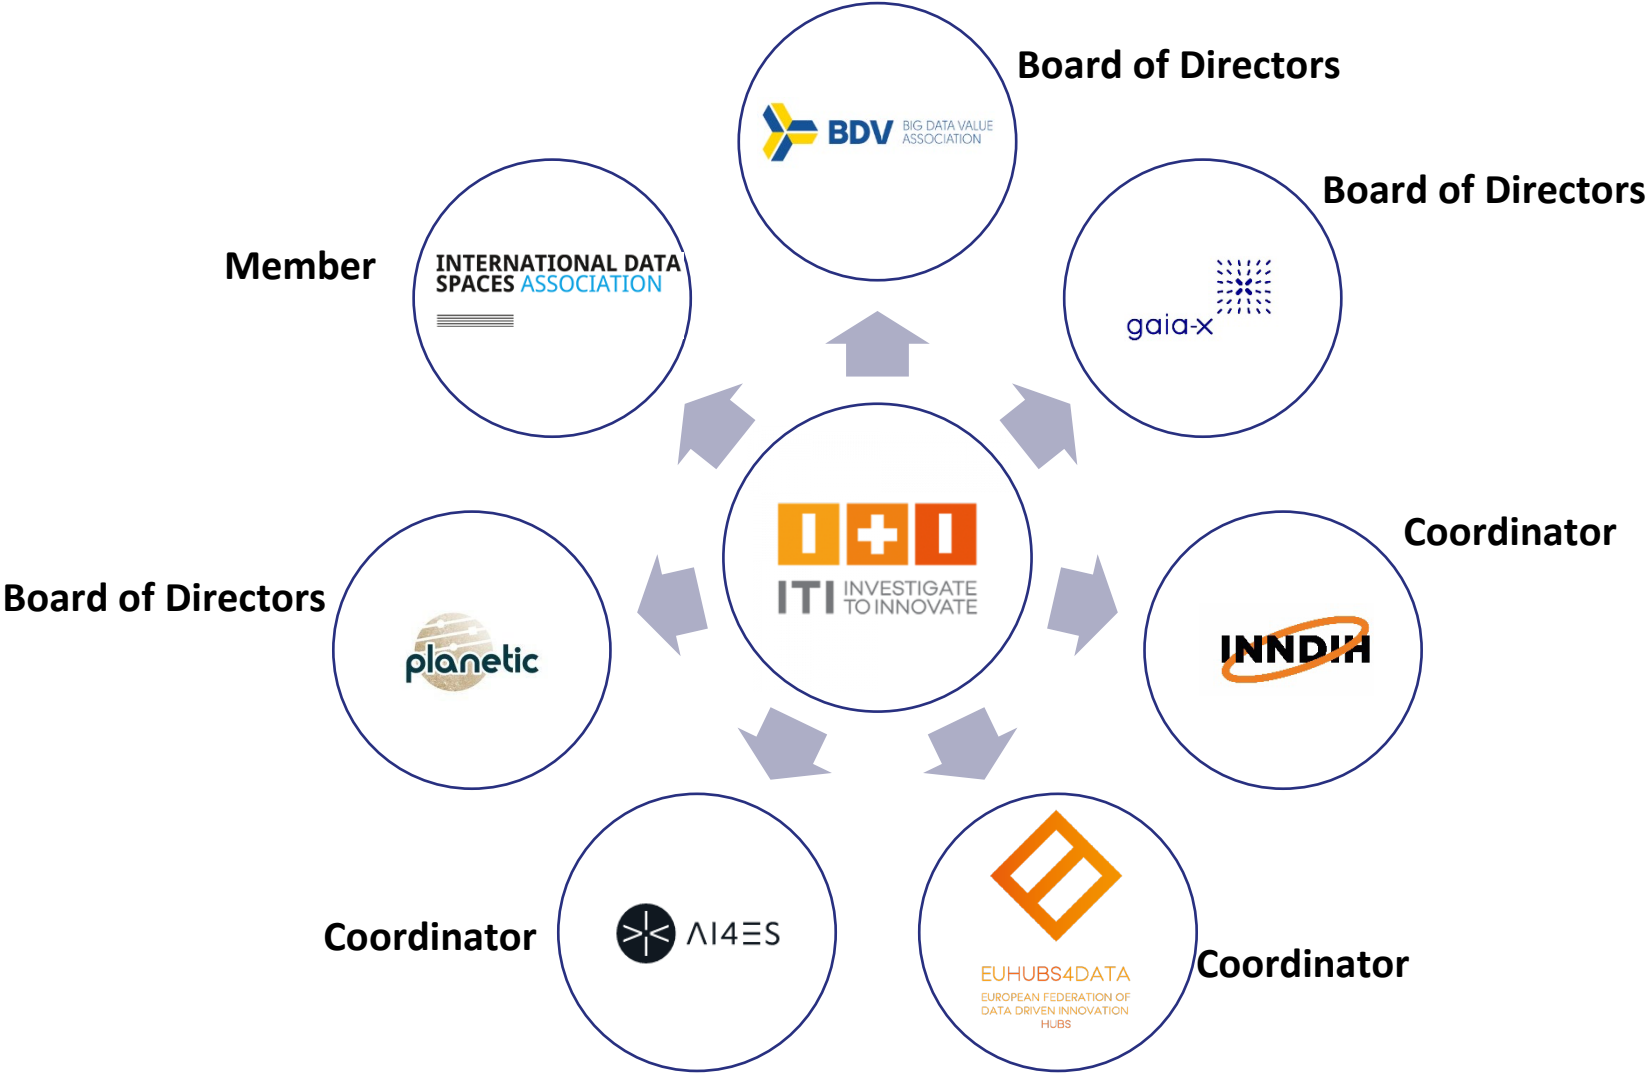

2 +106
Annual projects

3 +250
member companies

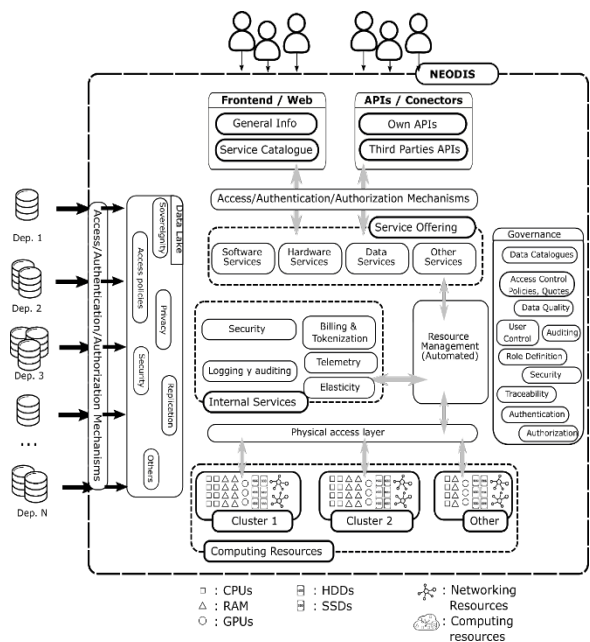

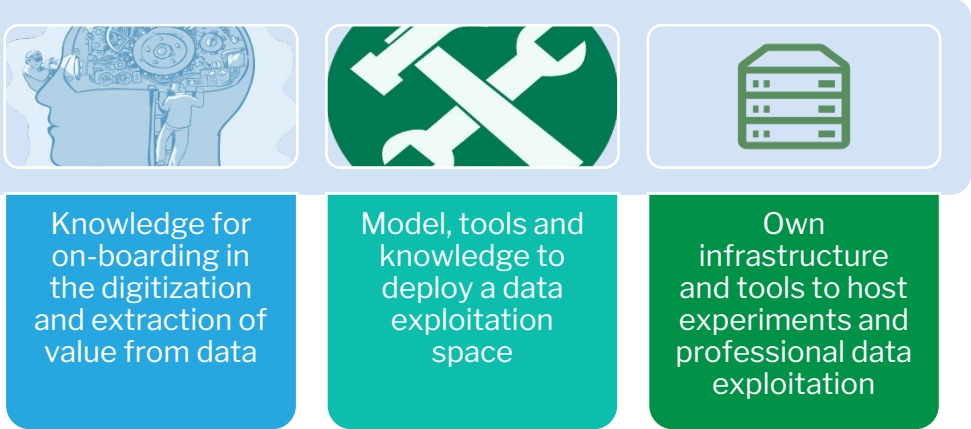

4 +300
customers

Our commitment

- Enriched node** providing:
- Data Quality
 - Data Governance
 - Data Ingestión
 - Data Storage
 - Data Sharing
 - Data Processing
 - Access control and security

A Data Space in itself
 Able to **connect to other nodes** and enlarge the Data Space opening the door to the Universe of Data and AI

Experimentation Space

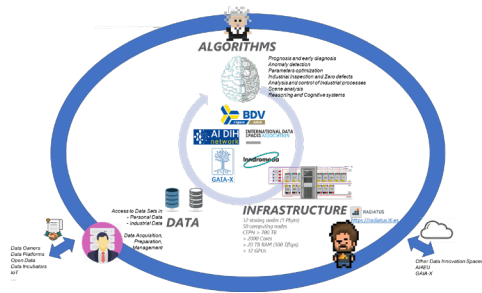

- Access to datasets
- Access to infrastructures and tools
- Support to experiments
 - Feasibility analysis
 - Proof of concept
 - Prototyping
- Data and Services Marketplace
- Selection and testing of technologies

Data management consultancy

- Advice on data sharing, governance, sovereignty, ...
- Advice on legal and ethical aspects
- Advice on data transformation processes (curation, anonymization, ...)
- Enablement in Big Data Analytics

Training

- Technique
 - Infrastructure deployment
 - Data governance
- Business
