

GLOBAL ID

Wearable, Private Biometric Authentication

Private • Easy • Secure • Reliable • Ultra-Scalable

Opportunity: Industrial Wearables

Augmenting People

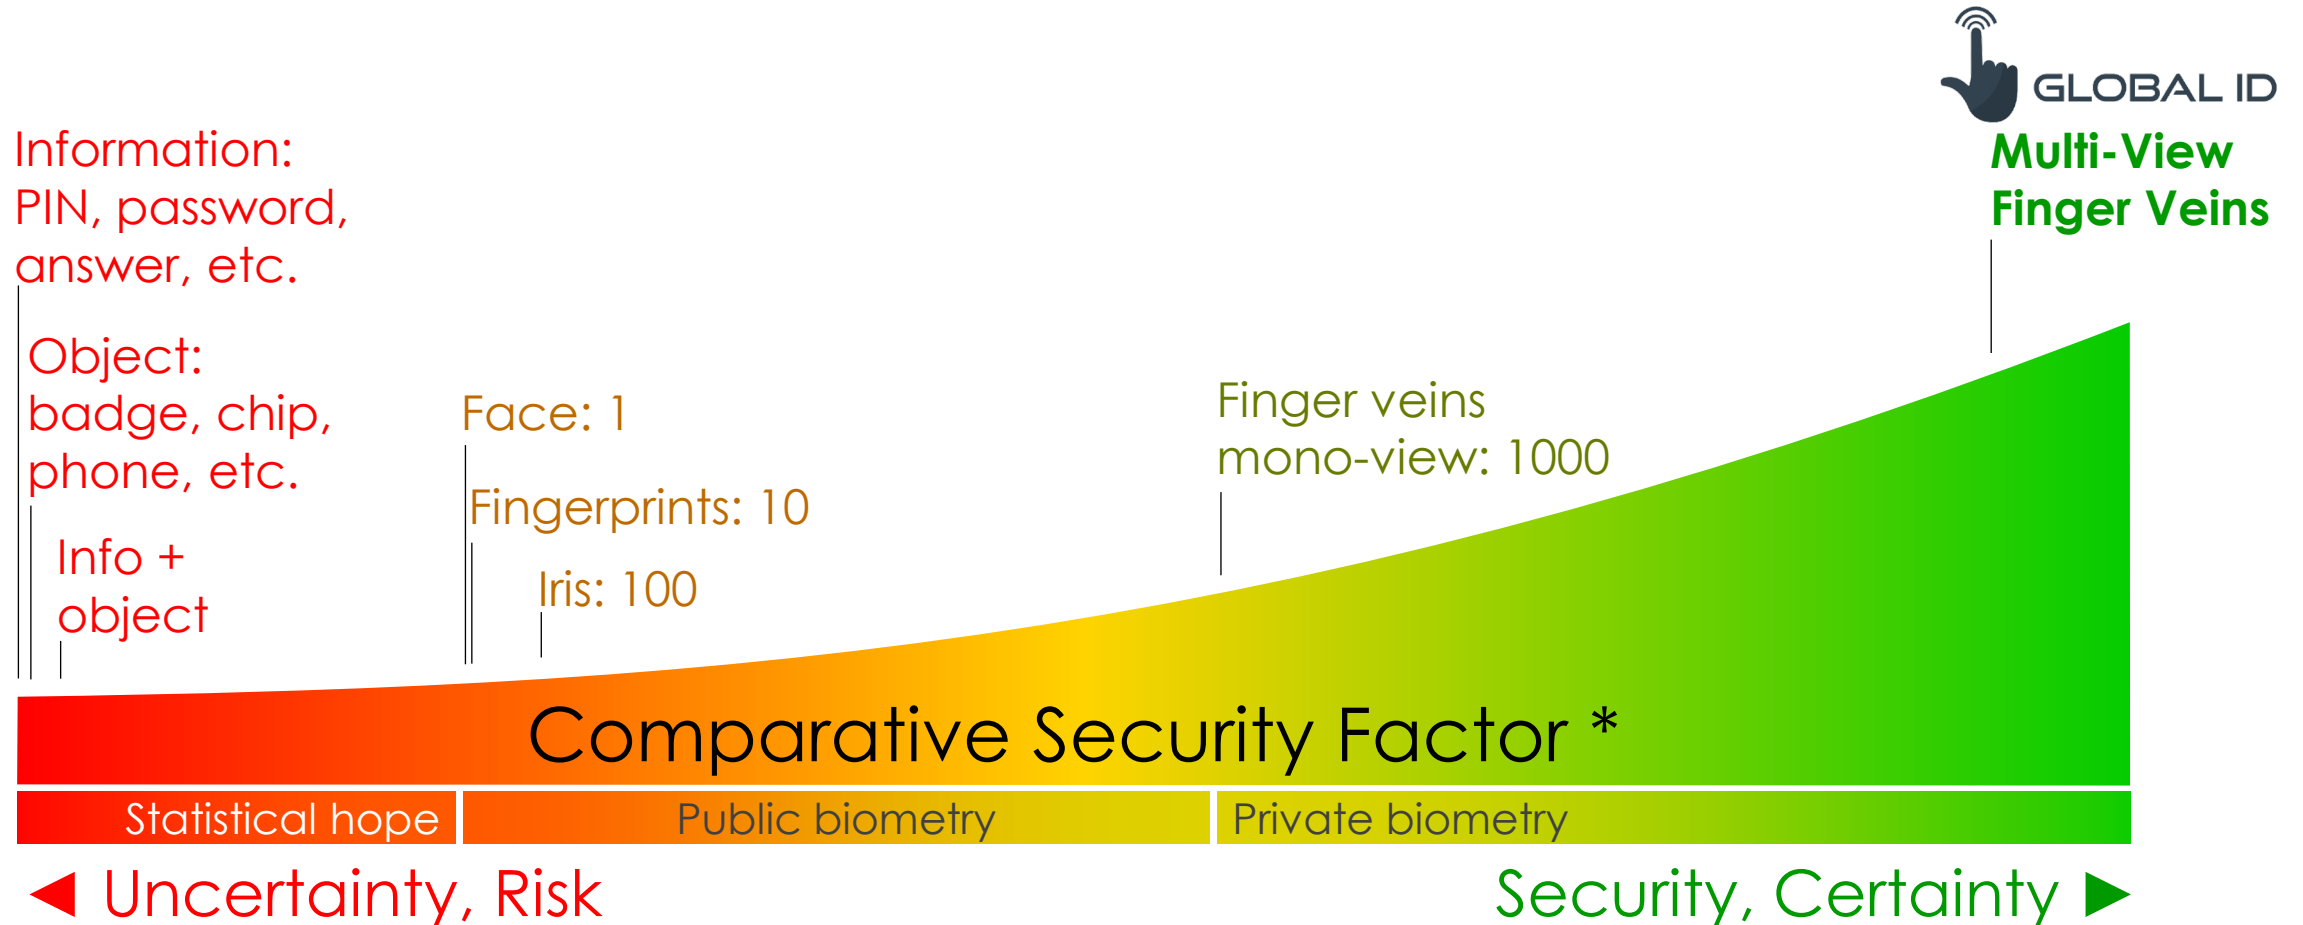

- Safety and security of individuals
- Environmental data collection
- Situational/operational awareness
- Next: wearable2machine Xchange
- But... Who Are You?

wearin'

Problem: Guessing and Invading

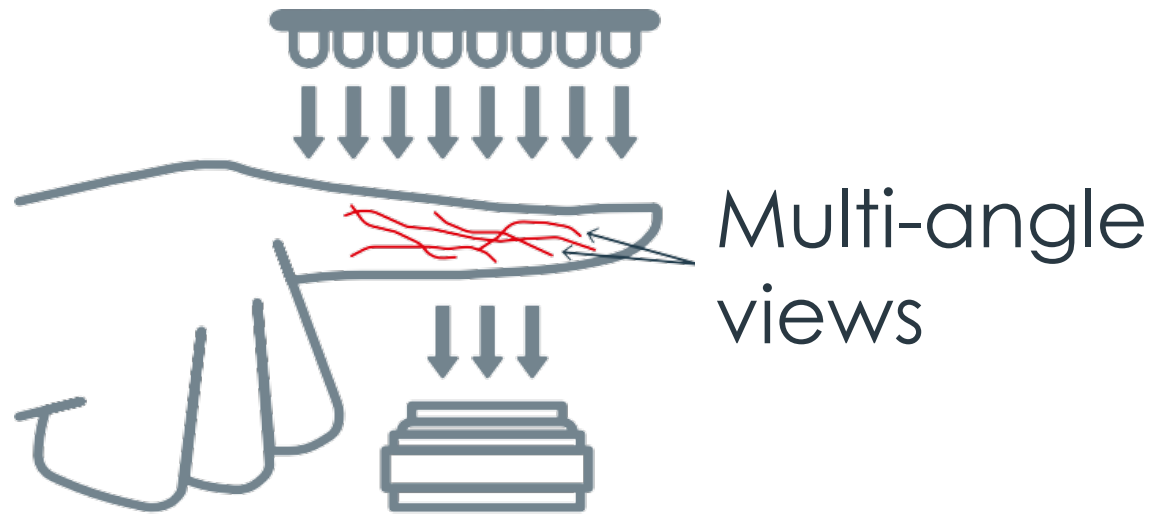

Vs Security and Privacy

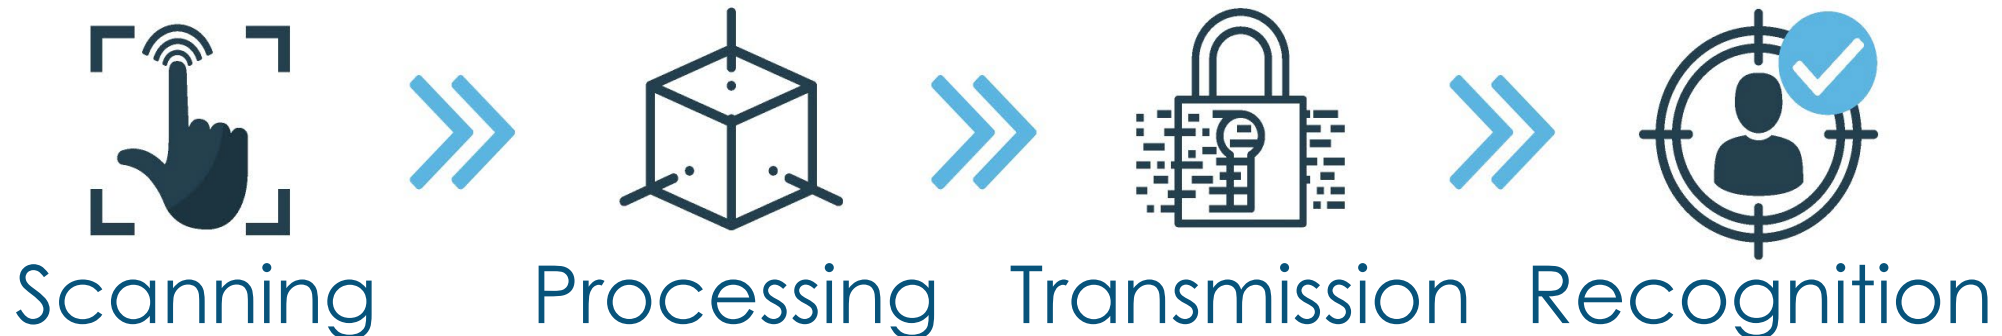

* Biometry statement from St. Gall City Police, 2018

Solution: Private Biometry

High-Confidence, High-Usability

- Private
- Easy
- Reliable
- Ultra-Scalable
- Secure
- Patented

Multi-View Finger Vein Authentication

High Usability, High Confidence, High Privacy

Protects Users

- Protects from identity mistakes or impersonation
- Fingers veins not forgotten nor stolen nor replicated
- Post-GDPR design for data privacy and security
- Eliminates criminal-like treatment

Protects Organisations

- Protects from identity mistakes or impersonation
- Fingers veins not forgotten nor stolen nor replicated
- Post-GDPR design for data privacy and security
- Eliminates criminal-like treatment

Talk to Us to Authenticate People

Privacy, Security, and Opportunity Cannot Wait

Privacy, data-privacy,
and data-security,
by design

Truly networked,
scalable architecture
(can also be device-based)

Authentication,
veno-signature,
veno-encryption

Patented
and adaptable,
because it is ours
