

OVON HOME

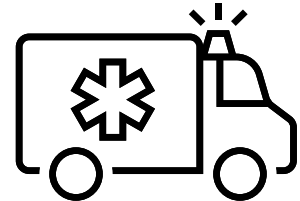

Creators of the world's smartest
heating control system

THE PROBLEM

Boilers do not provide accurate heating control or maintenance information.

Inefficient heating leads to high maintenance costs and fuel poverty.

OVON HOME

THE SOLUTION

Ovon Boiler Controller

Integrates with any boiler and provides remote diagnostic information.

Links to facilities management for social housing providers or landlords.

Operates without WiFi using NB-IoT and LoRaWAN for full coverage.

OVON HOME

THE SOLUTION

The Ovon Cloud

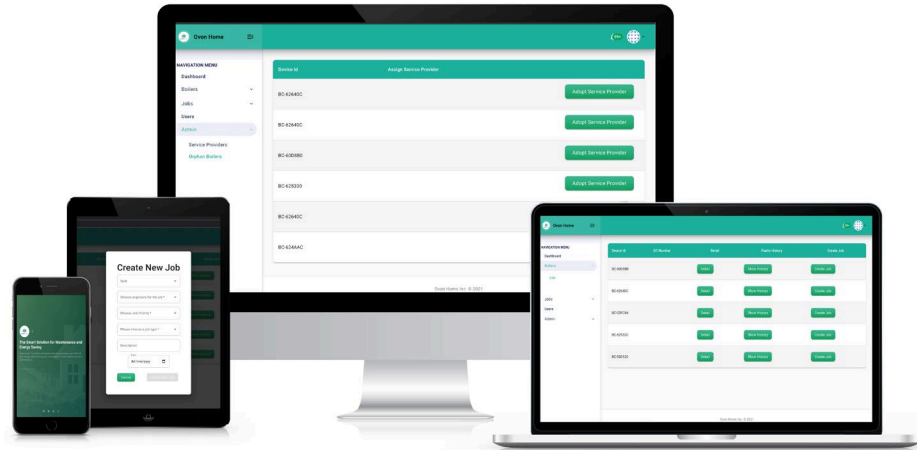

Diagnose problems before you arrive.

Optimise schedules and maintenance.

Live data and mobile-responsive for engineers.

OVON HOME

THE MARKET

200M

homes in the EU & US
with **compatible heating**
systems.

€300

Average boiler repair
cost.

2+

average number of engineer
visits to fix a problem.

OVON HOME
