IoT and Edge Computing Standardisation in the context of Data Spaces

22 June, 15:15 – 16:30

Svet Mihaylov (EC) - Antonio Kung (Trialog)
Participants / Presentations

- **Moderators**
  - Svetoslav Mihaylov, EC Policy Officer, IoT Unit, DG CONNECT
  - Antonio Kung, Trialog, CEO

- **Speakers**
  - Gyu Myoung Lee, Liverpool John Moores University, Professor
  - Silvia Castellvi, IDSA, IDSA Stakeholders Engagement Senior Consultant
  - Juan José Hierro, FIWARE, CTO
  - Milenko Tosic, Vizlore, director of Innovation
  - Fabio Coelho, INESC TEC, Senior researcher

- **Presentation**
  - Introduction and conclusion, Moderators
  - Challenges, Gyu Myoung Lee
  - Creating industry solutions, Silvia Castellvi, Juanjo Hierro
  - Example of interoperability framework and application to a domain, Fabio Coelho, Milenko Tosic
Conclusion
Prior to ISO/IEC JTC 1/SC 41 plenary
- Submission by AIOTI of position paper
- Request to create an advisory group on the integration of AI and data spaces

SC 41 Plenary 6-10 June 2022
- Resolution 416: Creation of Advisory Group
  - Convenor: Antonio Kung (AIOTI)

Future actions
- BDVA liaison with SC42
- Towards family of data space related standards
PROTOTYPES Open Call!

FOR EUROPEAN ICT/ENERGY SMEs AND STARTUPS

INTERESTED IN DEVELOPING NOVEL INTEROPERABLE APPLICATIONS FOR SMARTHOMES AND SMARTGRIDS

14 Bottom-up projects will get benefits such as:

- Financial support: up to 150,000 € per project!
- 7 months Customized Support Programme
