AIOTI - The Basis

- ❖ Create and master sustainable innovative European IoT ecosystems in the global context to address the challenges of IoT technology, applications and deployment including standardisation, interoperability and policy issues, in order to accelerate sustainable economic development and growth in the new emerging European and global digital markets
- ❖ Strengthen the integration across the digital value chain and foster coordination across different public funded industrial initiatives and support the acceleration of IoT deployment in a Digital Single Market context
- ❖ Promote global cooperation and collaboration in the area of IoT
- ❖ Mapping and bridging global, EU and Members States' IoT innovation activities
- ❖ AIOTI website: <https://www.aioti.eu/>

EC H2020 IoT Large Scale Pilots facilitated by AIOTI and started in 2017
