

# Large Scale IoT deployment in Carouge, Switzerland

Eunah Kim  
[eunah.kim@devicegateway.com](mailto:eunah.kim@devicegateway.com)

# Challenges

- 💧 Heterogeneous Multi-protocol Integration
- 💧 Cross-platform integration
- 💧 Security and Privacy
- 💧 Data interoperability
- 💧 Business process supports

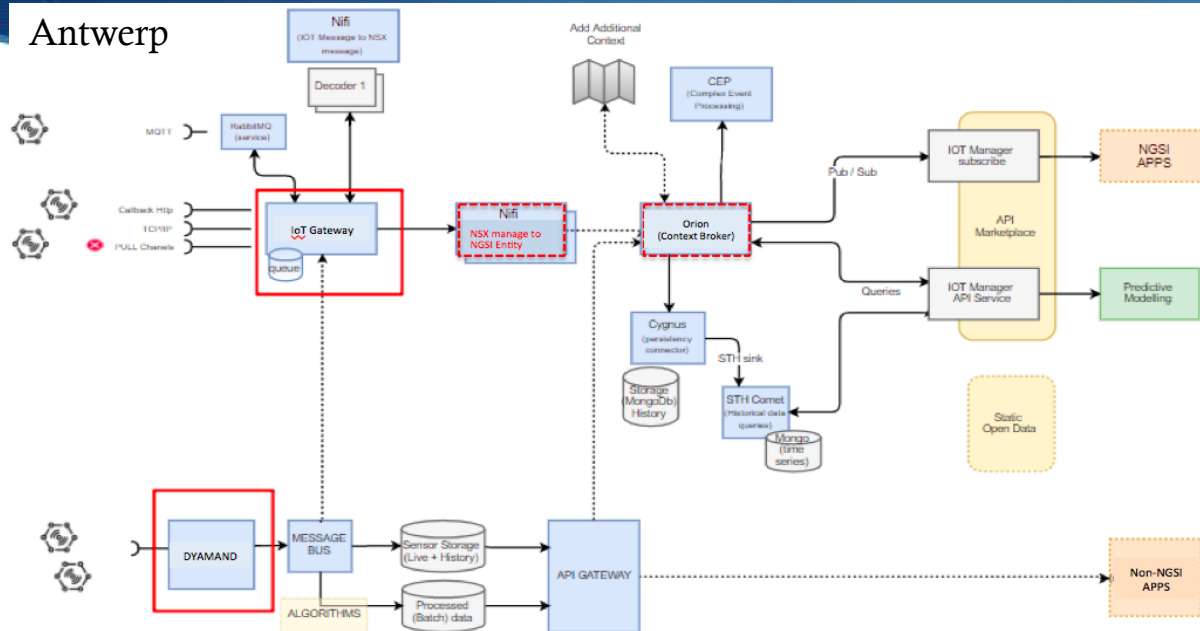

# SynchroniCity Approach

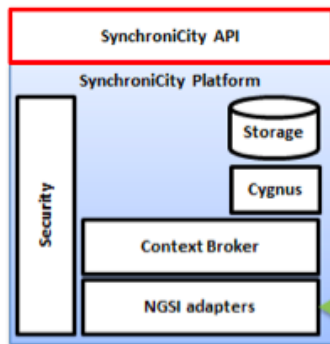

Key Interoperability points

# Cross-platform integration

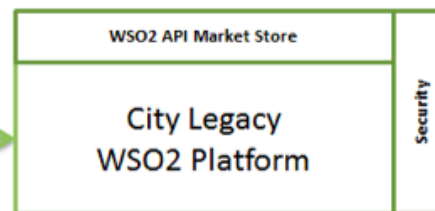

Antwerp

SynchroniCity Cloud infrastructure

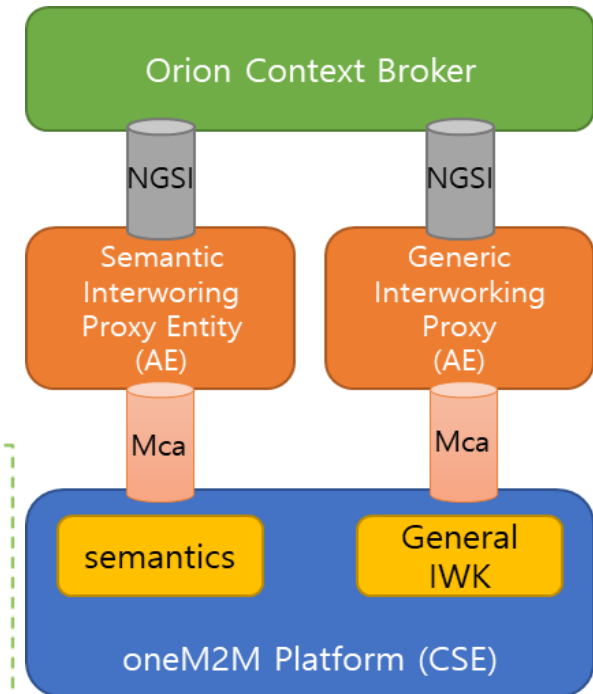

Milan RZ infrastructure

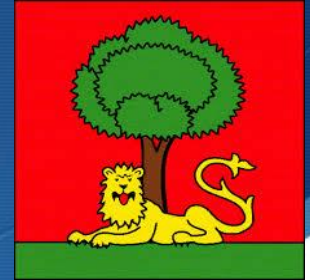

NGSI  
Proxy  
(or gateway)

oneM2M based city

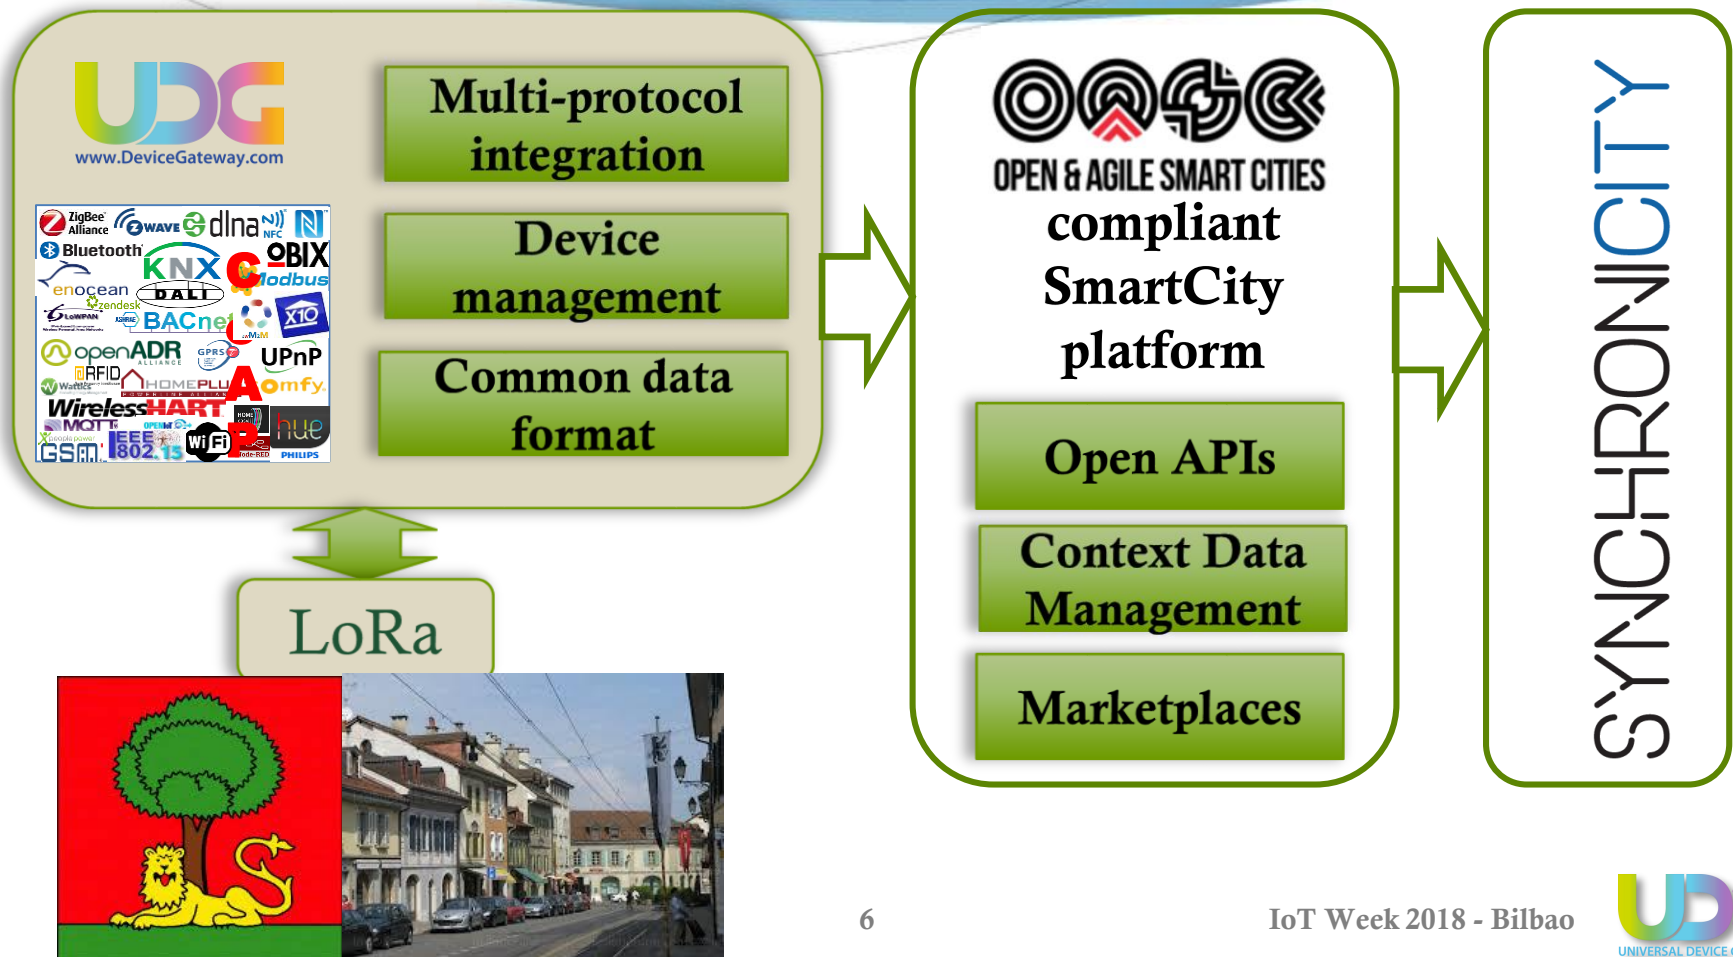

# SynchroniCity in Carouge

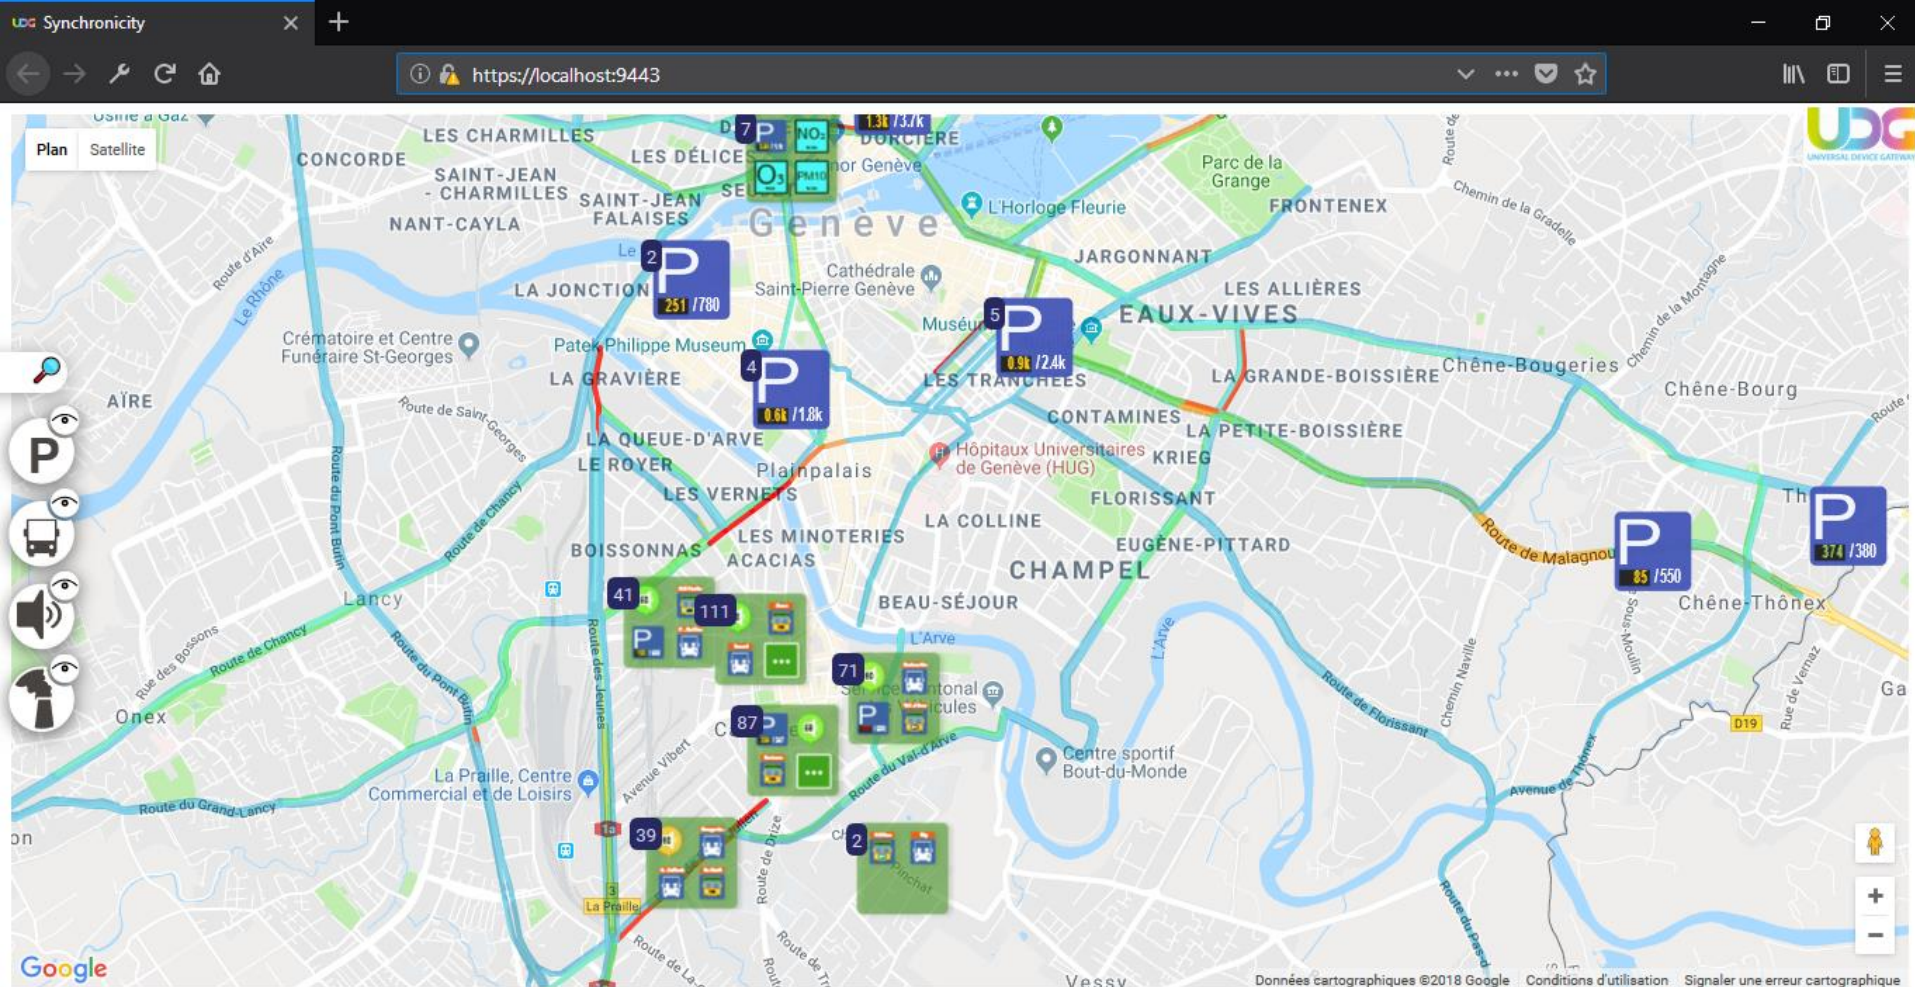

- ◆ The first Swiss city implementing international standards based multi-domain, multi-platform interoperable Smart City solutions
- ◆ Smart Parking
- ◆ Noise monitoring
- ◆ Public transportation information
- ◆ (plan) Air quality

# SynchroniCity Framework in IoT Integration

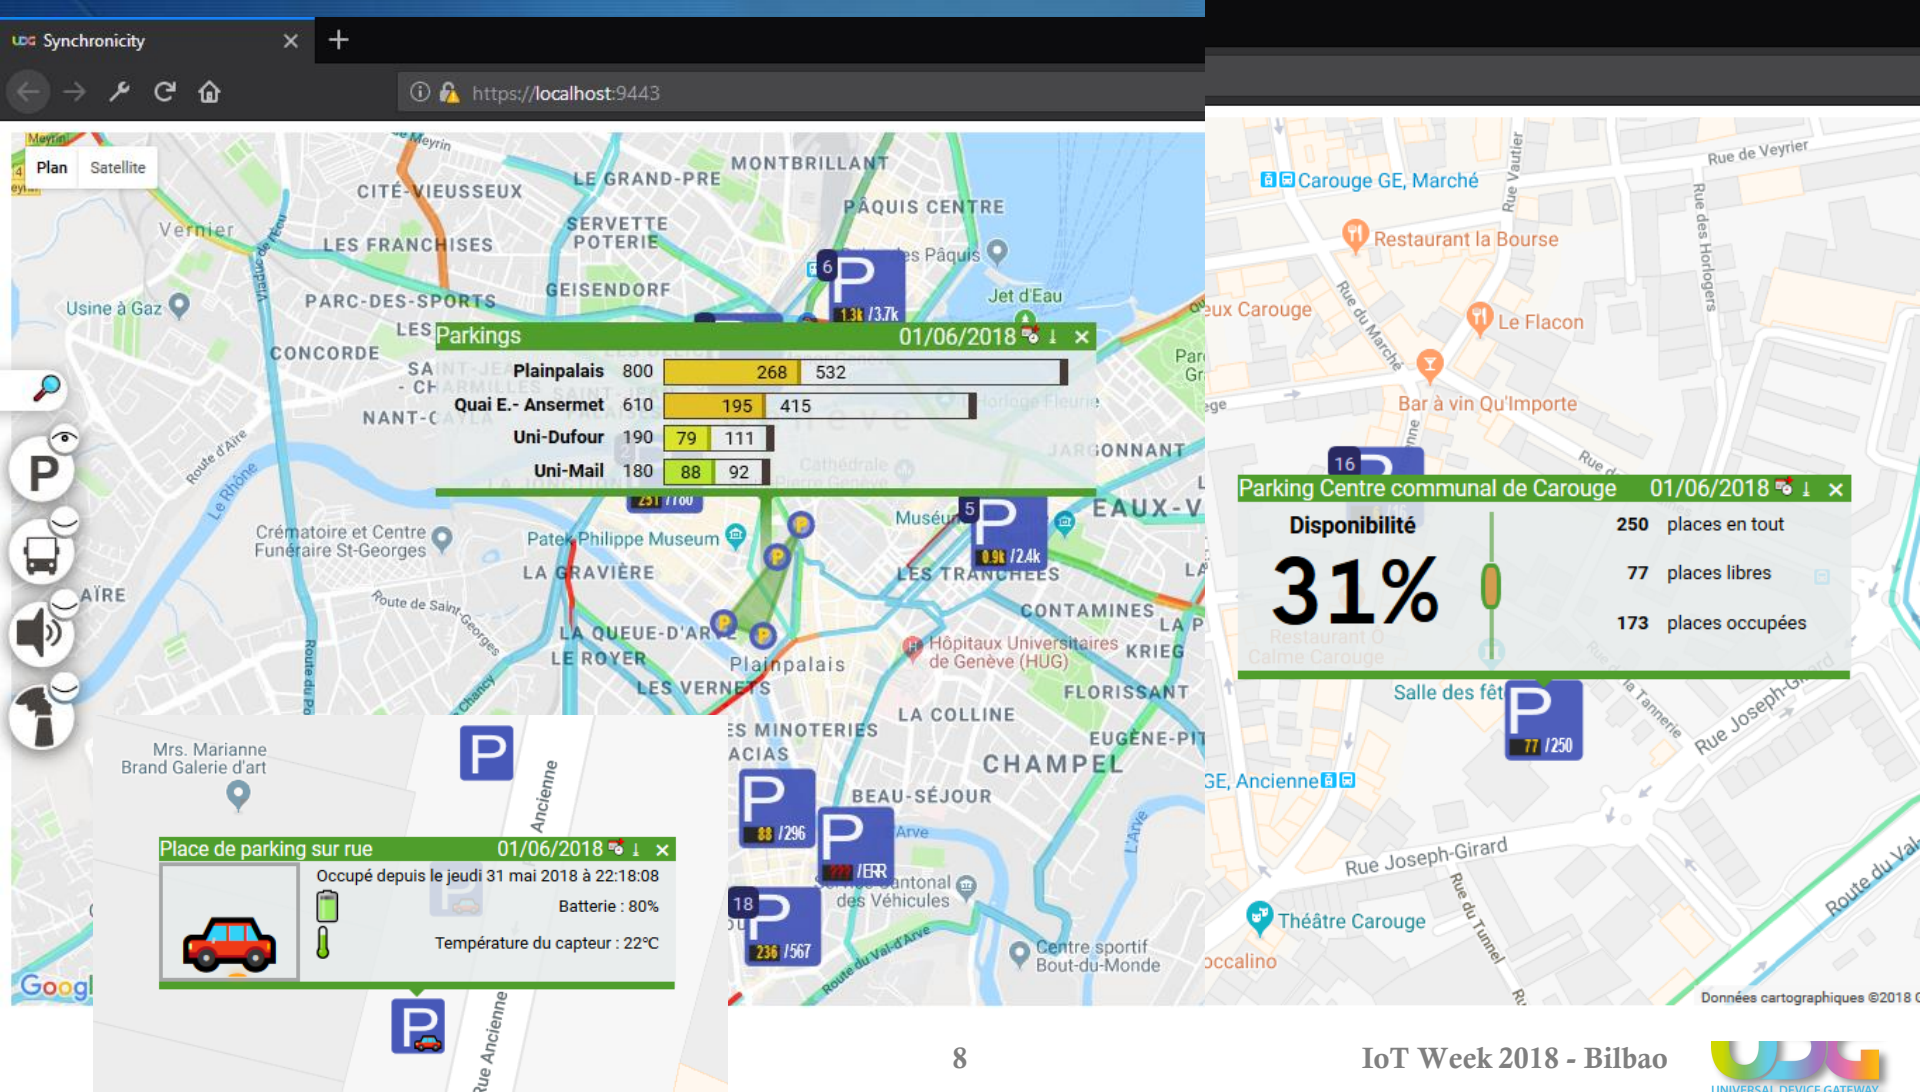

# Carouge – Multi-domain service integration (1/4)

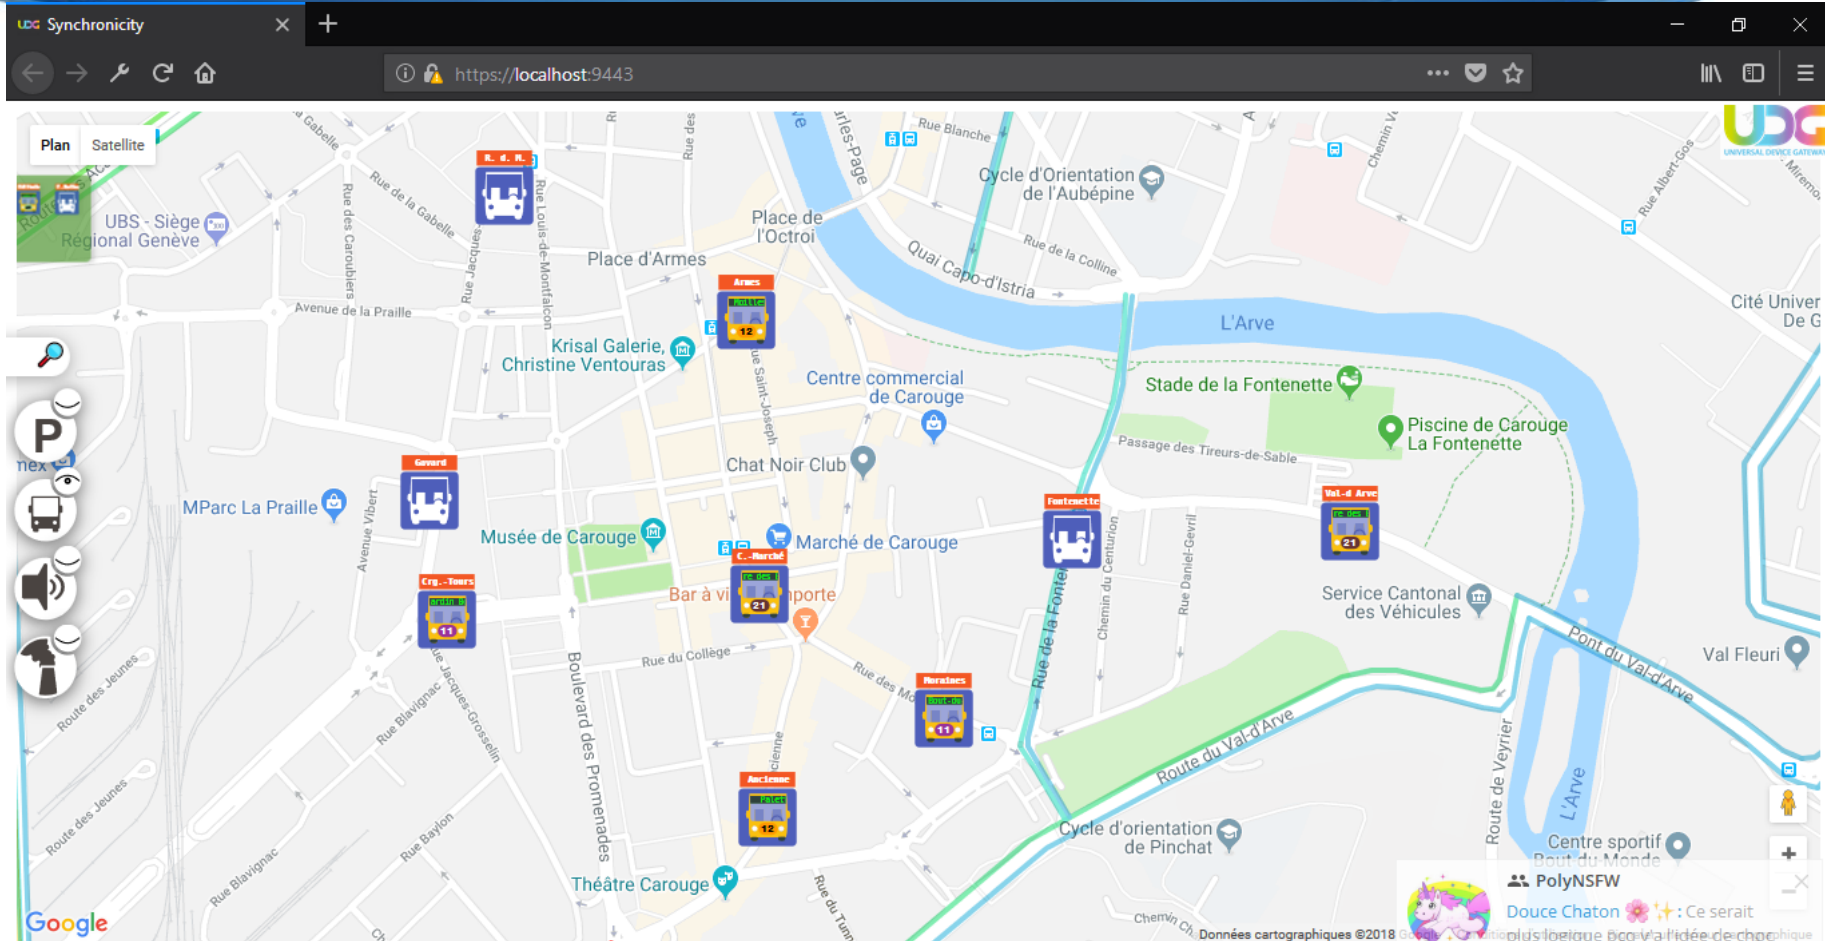

# Carouge – Multi-domain service integration (2/4)

# Carouge – Multi-domain service integration (4/4)

# Challenges and Opportunities

- 💧 Research activities + Real field deployment
  - 💧 Privacy policy enhancement for further services
  - 💧 Intelligent data management
- 💧 Efforts from Multi-community
- 💧 Challenges bring more opportunities

# Thank you for Listening!

*Let things work together! Let things work for you!*
