MODEL

FORECAST

ETHIOPIA: EXAMPLE SCENARIO

Current health situation

The health infrastructure in Ethiopia is among the worst fifth in Sub-Saharan Africa.

Scenario 1

If the health infrastructure improved to the top fifth in Sub-Saharan Africa, our model predict a **9%** decrease in migrants heading towards Europe.

3 GOOD HEALTH
AND WELL-BEING

How We Work

Watson Decision Platform for Agriculture

**\$2.4 trillion
agriculture industry**

is a foundation of economies worldwide

**Climate change,
population growth
and food safety**

driving the industry to seek more
innovative approaches to protecting
and improving crop yield

AI rapidly emerging

as a key part of the technological
evolution in agriculture

Data has a better idea

Beware of ethical issues and dilemmas
