

IoT Week
Aarhus, 17 - 21 June 2019
IoT week Panel Session: EU - China IoT Industrial
Cooperation: launch of Collaboration between AIOTI
and All

Moderator: Georgios Karagiannis (Vice Chair - AIOTI WG03, Huawei Technologies)
Xueli Zhang (China Academy of Information and Communications Technology (CAICT))
Kees van der Klauw (Chair - Alliance for Internet of Things Innovation (AIOTI))
Kai Zhang (Martel Innovate)
Yuming Ge (China Academy of Information and Communications Technology (CAICT))

Questions to be answered by the panel

- Why is the cooperation between EU and China, particularly on standards and interoperability important? In general, why global cooperation on standards and interoperability is important?
- What are the three most significant key topics that AIOTI-All should start cooperating with?
- How AIOTI-All cooperation can stimulate the cooperation in industry development and research, including SMEs participation?
